

Quantifying cell proliferation through immunofluorescence on whole-mount and cryosectioned regenerating caudal fins in African killifish

AO Augusto Ortega Granillo RS Rob Schnittker WW Wei Wang* ASA Alejandro Sánchez Alvarado*

Updated date: Dec 20, 2021

*For correspondence: wangwei@nibs.ac.cn, asa@stowers.org

 An abbreviated version of this protocol was published in Science in Sep 2020
Changes in regeneration-responsive enhancers shape regenerative capacities in vertebrates
DOI: 10.1126/science.aaz3090
